Create an independent and environmentally friendly yachting experience
which combines the silent cruising of a sailboat
with the luxury of a motor yacht.

An aerial photograph of a white yacht with a large solar panel array on its deck, moving across a dark blue ocean and leaving a white wake. The solar panels are arranged in a grid pattern on the main deck area. The yacht is oriented horizontally in the frame.

THE FUTURE OF YACHTING IS SOLAR

Embrace the sound of silence.
Preserve the purity of the ocean.
Experience unprecedented levels of tranquility and pleasure.

SOLAR POWER

for propulsion as well as all navigation, household & comfort appliances on board.

WORLD RECORD

2018 - Silent 64 first ever solar powered production yacht to cross the Atlantic ocean.

AWARD WINNING

technology 17x awards won honoring our drive for innovation since 2009.

Silent 64

In February 2018, our Silent 64 broke all existing borders and expectations. As the very first – fully solar powered – production yacht in the history of nautical travel, the SILENT 64 yacht crossed the entire Atlantic Ocean.

This extraordinary achievement proved the outstanding durability and efficiency of the Silent Yachts solar electric drivetrain even during unfavorable and rough weather conditions.

The boat is in excellent condition and offers a spacious and luxurious interior. She is currently berthed at our office and Port Adriano, Mallorca. After scheduling an appointment, take-over is possible on short notice.
