Create an independent and environmentally friendly yachting experience
which combines the silent cruising of a sailboat
with the luxury of a motor yacht.

THE FUTURE OF YACHTING IS SOLAR

Embrace the sound of silence.
Preserve the purity of the ocean.
Experience unprecedented levels of tranquility and pleasure.

SOLAR POWER

for propulsion as well as all navigation, household & comfort appliances on board.

WORLD RECORD

2018 - Silent 64 first ever solar powered production yacht to cross the Atlantic ocean.

AWARD WINNING

technology 17x awards won honoring our drive for innovation since 2009.

Silent 80

The Silent 80 represents the flagship of the Silent fleet.

Guests onboard experience premium levels of comfort, refinement and luxury. Every journey simply transforms into a story of pleasure. The interior cabins are crafted to match nothing but the best. In combination with the elegant exterior, which was envisioned and brought to life by none other than world renown yacht designer Marco Casali, the Silent 80 embodies the essence of a flagship in every possible way.

CAPABILITIES

CRUISER

2 x 150 kW
E-motors

200 kWh
Lithium battery

100 kW
Generator

6 ~ 8 kn
Cruising speed

The ideal entry into the world of solar powered noiseless cruising.

Two electric motors allow you to seamlessly glide towards the horizon providing high levels of comfort, making this option suitable for long term economic cruising.

Furthermore, the solar electric drivetrain features unprecedented levels of reliability and security with almost zero maintenance work needed.

E-POWER

2 x 200 kW
E-motors

286 kWh
Lithium battery

145 kW
Generator

6~8 kn
Cruising speed

The most powerful propulsion option combines the largest battery bank with the strongest electric motors available.

Higher speeds can be sustained for even longer periods of time while also maximizing the amount of energy which can be stored for back-up and deployed whenever needed.

Therefore , E-Power+ delivers the ultimate solar powered yachting experience.

E-POWER+

2 x 340 kW

E-motors

429 kWh

Lithium battery

2 x 145 kW
