During the [Monaco Yacht Show](#), Justin Ratcliffe joined Michael Köhler, founder of [Silent-Yachts](#), onboard the 24.6-metre [VisionF BLCK](#) edition catamaran, to hear more about the collaboration that brought forth this hybrid catamaran.

“High-end power Cats are in vogue at the moment and this 80-foot all-aluminium yacht was built by relative newcomers, [VisionF Yachts](#) in Istanbul, Turkey,” Justin Ratcliffe explains. “Michael Köhler is working in partnership with the shipyard to share his knowledge, so they can offer hybrid solutions aboard their own yachts.”

With such a diverse portfolio the conversation soon turned to the latest products that Silent-Yachts have either just launched or is about to launch.
