

Silent Resorts: Innovative solar powered resort with floating villas

September 3, 2020

3 MINUTES READ 00:02:04

Silent Yachts and partners established a new company: Silent Resorts, providing truly sustainable, fully reversible, island and beach property resort development

Silent Yachts has established a new way of integrating a floating sustainable villa experience with luxury resort destinations.

Silent Yachts, the worldwide leader in solar electric luxury catamaran construction, is already known for bold decisions and ingenious moves. Now the innovative Austrian company is taking its skills and expertise to another level.

The unlimited range of Silent Yachts

Silent Resorts has designed and developed a revolutionary way to provide a new exclusive and alternative experience to traditional resorts. The company offers a flexible and pre-engineered solution that includes the docking area with several solar electric catamarans by Silent Yachts serving as floating sustainable villas for guests and other accompanying infrastructure. A turnkey resort can be operational in 18 months or less in any location worldwide.

Silent Resorts supplies everything for any project. The company designs and develops a fully autonomous 'land and sea' resort running on solar energy. It provides the Silent Yachts' catamarans for guests so they can live on board spacious 18-meter long Silent 60 or 24-meter Silent 80 that are equivalent to floating luxury villas.

A turnkey resort can be operational in less than 18 months in any location worldwide

Each has four suites with private bathrooms and large saloons with a chef's kitchen, a terrace, a sundeck and other amenities. At any time, if they want to take a boat trip, they're free to take off and start exploring the sea. With the unlimited range of Silent Yachts, and the unique private island locations that Silent Resorts is developing world-wide, guests and members can look forward to a new era of ocean independence.

In addition, Silent Resorts is responsible for all the infrastructure and design. The latter includes arrivals dock and reception, restaurant, pool, clubhouse, gym and spa, beachfront tented and hardwood timber suites - all at the water's edge. The Silent Resorts experience offers the unique opportunity for guests to 'Live Fully' in the world's most beautiful and pristine places, 'Tread Lightly' upon the environment, and to 'Stay Silently' with nature.

Short and long term land leasing and partnerships are the preferred model for resort development. Resort owners no longer need to purchase expensive acreage if they choose not to. It means total future flexibility for investors and operators.

The guest experience is uniquely customizable

Last but not least, the guest experience is uniquely customizable. Multiple day and overnight locations can be offered, while the room travels with them during their stay.

Tent Sanctuary in Wild Nature

A luxury adventure driven by creative experiences, activities and attractions. In fact, there's no such thing as a typical day at this wild selection LONGITUDE 131°, Australia Longitude 131° is among Australia's most acclaimed luxury wilderness retreats - an exclusive collection of 10 tented pavilions with unrivalled views of the country's best-known natural wonder, Uluru... Silent Yachts powerful solar and battery storage systems can also supply power to buildings and amenities on land while docked. And for larger resorts, Silent Resorts also designs and builds luxury pre-engineered villas using the same solar system that is installed on the [yachts](#), for a fully integrated, 100% carbon free solution.

The [new project](#) is aligned with our strategy to deliver sustainable, completely silent, fossil-free leisure experience to clients", said Michael Köhler, Silent Yachts Founder and CEO. "And it is beneficial for the building process. No costly remote site construction, lengthy approvals, complex engineering, or land-based invasive infrastructure development needed anymore. We provide a floating luxury adventure resort, an experience like no other."
