

# New York Weekly Times

The annual [Cannes Yachting Festival](#) is back again this year. Between September 7 to 12, Cannes' Vieux Port and Port Canto will be home to some of the world's most prestigious yachts. Last year's affair was cancelled due to the pandemic and boat builders are raring to showcase their creations and woo potential buyers.

This year's event will be organised at two locations: Vieux Port and Port Canto. At the former, the harbour will play host to 450 prestigious new motorboats and yachts ranging from 3 to 45 metres in-water in length.

# Silent 60

Image: Silent Yachts

The Silent 60 has a length of 18 metres and features a new high-performance hull with a reverse bow, while details include long window stripes on the hulls and more window surface overall. It is also fitted with 42 solar panels on the roof and hardtop, which can produce 17kWp. Furthermore, the yacht comes with the company's aeration system that can cool down its interiors while the reverse-cycle has no problem providing warmth during colder months.
